EXPLANATION:

The Earth Charter is a declaration of fundamental ethical principles for building a just, sustainable and peaceful global society in the 21st century (www.earthcharter.org). It developed from the grass roots, not the U.N. or NGOs and is the result of the most inclusive and participatory worldwide process ever associated with the drafting of an international declaration. The Earth Charter seeks to inspire in all people a new sense of global interdependence and shared responsibility for the well-being of the whole human family, the greater community of life and future generations. It is a blueprint for local and global ministry, a vision of hope and a call to action. Our Diocesan Council and Social Concerns Commission have joined hundreds of religious organizations and leaders in endorsing the Charter. Now is a critical moment in the history of God's creation, a time when we must choose our future. Our common destiny calls us to seek a new beginning, a fundamental change of heart and mind, a clear recognition of global interdependence and universal responsibility. We must act now to achieve sustainability, justice and peace. A copy of The Earth Charter is available in the General Convention Secretariat and will be posted on our website until the close of the 76th General Convention.
