ON THE GROUND

RideAustin - <http://www.rideaustin.com>

Is a non-profit ride-sharing company that was created to offer affordable rates, with better compensation to drivers and was created in 2016 when Uber/Lyft temporarily left the market due to regulations surrounding ride-sharing services. There is also the option to round up your fares. We

designed RideAustin from the beginning to be for the community by the community. There are a lot of great charities in Austin that we feel should also benefit from ridesharing. By making it easy for people to 'round up' their fares - we can provide local charities contributions on an ongoing basis. Our charitable work will eventually include free and reduced priced rides to low income elderly, the disabled, and other groups.
